HYUNDAI
MATERIAL HANDLING

Your satisfaction is our priority.

Robust AC technology!

Hyundai's 9-series small battery forklift

Hyundai introduces a new line of 9-series battery forklifts.

The newly designed four-wheel counterbalance forklift maximizes productivity by enabling comfortable driving and easy maintenance.

Work efficiency & productivity

- Strong and exquisite driving performance of a dual drive motor
- Optimized performance mode setting (H.N.E)
- Easy and efficient directional & horn switch on lever (OPT)
- Curve control
- Load weight indicator (OPT)

Durability & reliability

- AC motor exclusive - IP65 ZAPI controller
- Semi-permanent wet disc brake
- IP43 AC motor

Safety

- Anti-roll back system
- Turtle mode & Speed limit setting
- Operator Presence Sensing System (OPSS)
- Panoramic rear view mirror

Maintenance

- Self Diagnostics function
- Password starting system
- Brake oil level sensing system

Power & Performance

High Efficiency & Optimal Performance

An efficient, smooth running and compact design provides enhanced performance and outstanding productivity.

Some of the photos may include optional equipment.

Strong driving power : Dual drive motor system

The dual drive motor system consists of two separately controlled drive motors. Unlike the single drive motor system, it prevents the wheels from spinning even when the grip force of the left and right wheels is different. In addition, it enables strong drive performance even on a dirty road. As the pivot point is the axle of the wheels, the dual system enables relatively small turning radius compared to the single system, thus improving efficiency in small worksites.

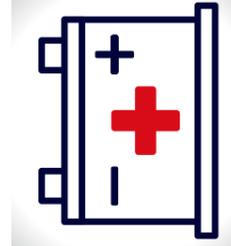

Some of the photos may include optional equipment.

Curve control

Curve control limits travel speed based on turning radius for a smooth, precise turning operation for the driver.

Prolonged battery use

When the operator's foot is lifted from the accelerator, the kinetic energy is converted to electrical energy and stored in batteries. The operator can stop the vehicle with the energy generated from the energy conversion.

Directional & horn switch on lever (OPT)

Electronic directional control and secondary horn are mounted to the hydraulic lift lever for quick and precise maneuvering.

Robust and economical AC motor

Drive and pump motors using AC technology provide great controllability and durability, compared to DC motors. Also, AC motors without the commutator and brushes cost less to maintain. In addition, it has been tested and passed for IP43 protection rating.

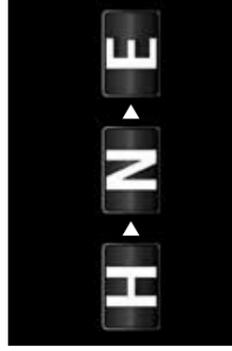

Wet disc brake

The semi-permanent wet disc brake provides constant braking force without overheating even when used for long hours of repetitive work, thus improving work efficiency. Without requiring brake linings, which needs regular replacement, maintenance costs are relatively low.

New ZAPI controller

The almost noiseless 8 khz (high frequency) ZAPI controller enables high efficiency control and protects the system from low and high voltages and over-heating.

Optimized operation mode setting

Through the cluster and the performance selection function of ZAPI controller, the operator can select an optimal performance mode depending on working conditions, worksite size and operator proficiency. H (High), N (Normal) to E (Economic)

Finger tip control levers (OPT)

The electric control lever reduces operator fatigue, and the ergonomically designed armrests can be adjusted up, down, forward and backward for operator's body types.

Easy & Comfort

Optimized & Ergonomics & Fast and Easy Maintenance

An ergonomically designed workspace for operator provides the best comfort and easy access for maintenance.

COMFORTABLE WORKSPACE

Some of the photos may include optional equipment.

Ergonomically designed workspace

Ergonomic design focusing on operator convenience and maneuverability further enhances work efficiency. Easy to operate levers and pedals, adjustable handle, suspension seat and a large multi-functional cluster dashboard allow comfortable and efficient driving. A 12V power socket is a standard feature to improve operator convenience.

Some of the photos may include optional equipment.

Steering wheel position

A steering sensor is applied to the king pin of the rear axle, communicates to the LCD color monitor to show the direction of the vehicle as it relates to the angle of the steer wheel.

Open footplate

Non-slip and wider open steps offer convenience and safety when entering and exiting vehicle.

Adjustable tilting handle

The handle angle can be adjusted with the lever on the right side of the steering wheel to suit the operator's physique and driving habit.

Grammer seat

An adjustable ergonomic seat provides unmatched comfort. The adjustable armrest further reduces operator fatigue.

- EIR(Emergency Locking Retractable) type seat belt
- Seat heater (STD) & headrest (OPT)

3.5 inch LCD color monitor

The 3.5 inch TFT LCD color monitor indicates speed, steering angle & driving direction, battery charge level and hour meter & working mode, thus allowing easy and efficient control for the operator. In addition, diagnostic error codes allow easy fault diagnosis.

Main functions of the monitor

- Steering wheel position & driving direction
- Turtle mode
- Driving speed (Digital)
- Battery discharge indicator
- High temp warning lamp
- Wrench warning light
- Roll up
- ESC
- Menu / Scroll left
- Performance / Scroll right
- Enter
- Turtle / Scroll down

Easy maintenance of battery

The battery cover opens fully with the assistance of a gas strut that locks when fully opened to give easy access to battery and prevent the hood from dropping.

Brake oil reservoir with level sensor

The enhanced brake oil reservoir, located in the upper left dash is equipped with an electronic level sensor that shows the level in the LCD color monitor.

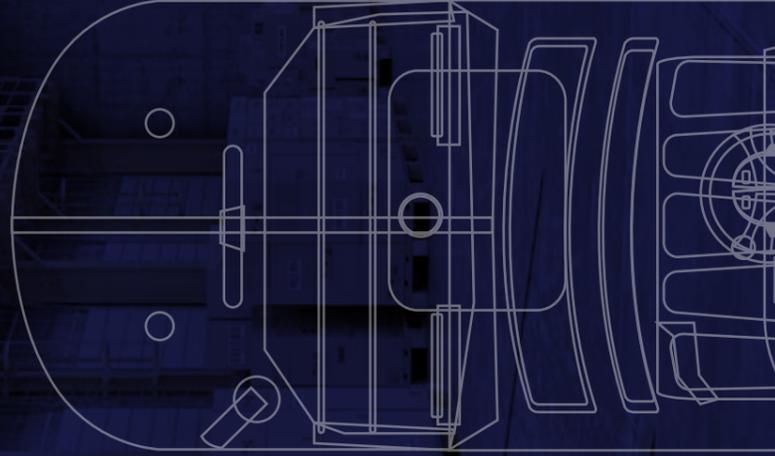

Secure & Safety

Advanced Safety

The safely designed driver's space makes your operating more comfortable.

Some of the photos may include optional equipment.

Great visibility for safe operation

The optimized lift cylinder array design provides a clear, wide field of vision for the operator. A rear camera(OPT) and panoramic mirror expands the driver's view when backing up.

Some of the photos may include optional equipment.

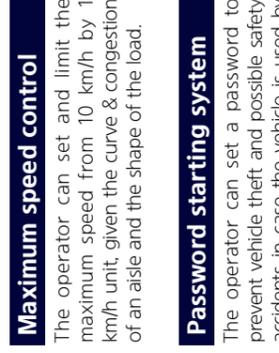

Strong overhead guard

Exceeding ISO6055 regulations, the overhead guard offers great protection combined with excellent all around visibility.

Panoramic mirror

The panoramic mirror expands the driver's view when backing up.

Maximum speed control

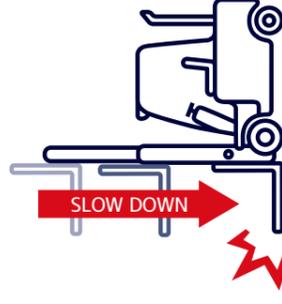

The operator can set and limit the maximum speed from 10 km/h by 1 km/h unit, given the curve & congestion of an aisle and the shape of the load.

Password starting system

The operator can set a password to prevent vehicle theft and possible safety accidents in case the vehicle is used by an unauthorized person.

Safety system to prevent accidents in advance

The high-sensitive sensor prevents in advance possible accidents caused by the operator's mistake or unexpected events. The operator can thus focus on work without worrying over safety in an intensive work environment.

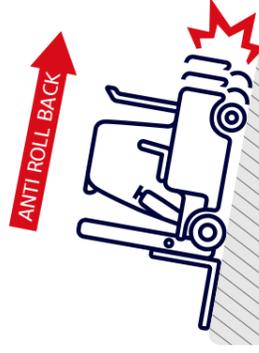

Fork safety features

As the forks are being lowered, a down-control valve maintains a controlled descent speed. The down-safety valve prevents forks from dropping down in case of sudden damage of hydraulic line.

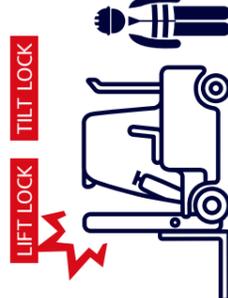

Strengthened work safety

Rear LED lights and halogen lights offer excellent visibility even during night operations. Safety has been increased by installing an additional reflector on the counterweight.

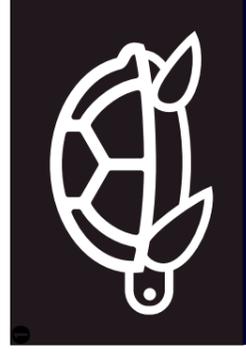

Anti-Roll Back system

Anti roll-back system offers protection against the machine rolling back on a ramp in combination with exceptional ramp start capabilities.

Operator presence sensing system (OPSS)

When operator is not in seat the hydraulic lift and tilt controls and travel are locked out.

Turtle Mode

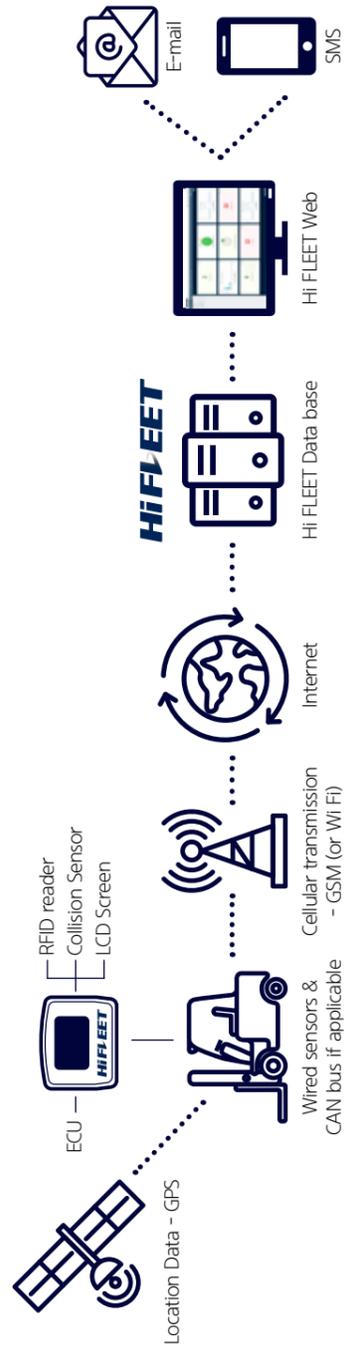

Selecting turtle mode allows the operator to reduce travel to a pre-set speed, which is ideal when working in narrow and or congested work areas.

Fleet Management System(Hi FLEET)(OPT)

Hi FLEET, Hyundai material handling's fleet management system, is the optimal operation solution for a fleet of forklifts. It connects driver and vehicle in real time.

You can see the video by scanning the QR code.

DRIVER MANAGEMENT

It is possible to certify drivers and manage their work through RFID, PIN password.

VEHICLE MANAGEMENT

You can check the operating time, battery status, and location information in real time.

SAFETY MANAGEMENT

You can check the driver's conditions and vehicle status before starting work and manage the speed and collision.

MAINTENANCE

You can keep your vehicles in optimal condition by notifying the vehicle's maintenance interval and fault codes.

New 9 Series

16/18/20B-9

Load Capacity

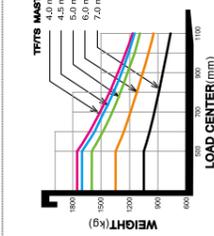

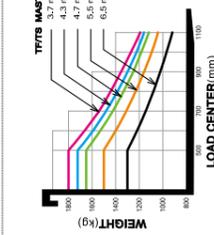

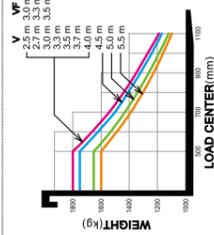

16B-9

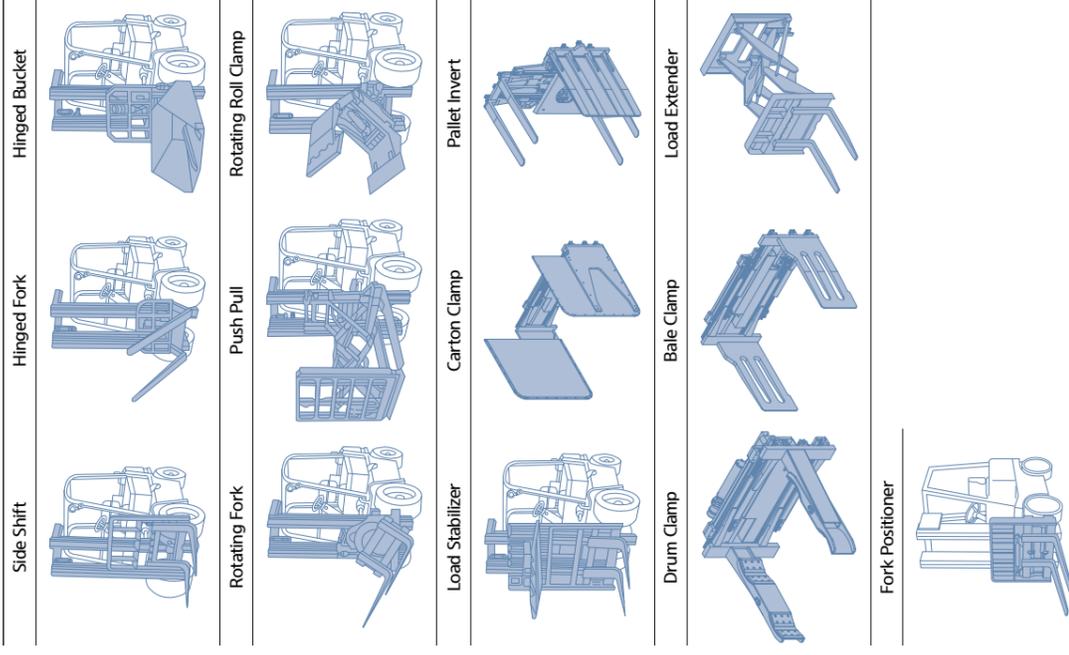

18B-9

20B-9

Various Attachments

Optional Items

- Fork (mm)
16 / 18B-9 : 35X100X750, 850, 900(STD), 1050, 1200, 1350, 1500
20B-9 : 40X100X900(STD), 950, 1000, 1050, 1150, 1200, 1350, 1500, 1600
- Integral Sideshift / Sideshift
- Tire : SOLID(STD) / Non-marking / Wide tire [16B-9 : Front tire (200 / 50-10)]
- Seat : Grammer
- M.C.V : 2-Spool (STD), 3-Spool, 4-Spool
- Auto Fork Leveling
- Beacon Lamp
- Load Indicator
- Work Lamp
- OPSS : Mast
- UL : ES, EE
- Direction Switch on Lever (for -30° c cold working environments)
- Cold Storage
- Cabin
 - ① : Front + Roof / ② : ① + Rear /
 - ③ : ② + Side door / ④ : ③ + Heater /
 - ⑤ : ④ + Audio

Specification

Identification		Hyundai	
1.1	Manufacturer	Hyundai	
1.2	Model	16B-9	20B-9
1.3	Power type / Electric	Electric	Electric
1.4	Operator type / Driver-seated	Driver-seated	Driver-seated
1.5	Load capacity	Q kg 1600	2,000
1.6	Load center distance	c mm 500	500
1.8	Forward overhang (LMC)	x mm 360	365
1.9	Wheel base distance	y mm 1,355	1,440
Weights		kg	3,275
2.1	Truck weight	kg	4,200 / 550
2.2	Axle load (w/ front, rear load)	kg	4,850 / 630
2.3	Axle load (w/o front, rear load)	kg	1,585 / 1,565
2.3	Axle load (w/o front, rear load)	kg	1,603 / 1,672
Tires		SE	SE
3.1	Tire type: solid (V), pneumatic (P), polyurethane (PE)	SE	SE
3.2	Front Tire size (φ x width)	18x7-8	200 / 50-10
3.3	Rear tire size (φ x width)	16x6-8	16x6-8
3.5	Wheels, number front rear(x = driven wheels)	2x / 2	2x / 2
3.6	Track width (front)	mm	895
3.7	Track width (rear)	mm	880

Performance Data

5.1	Travel speed, loaded / unloaded	km/h	16 / 17	16 / 17	16 / 17
5.2	Lift speed, loaded / unloaded	mm/s	410 / 600	410 / 600	410 / 600
5.3	Lowering speed, loaded / unloaded	mm/s	500 / 450	500 / 450	500 / 450
5.6	Loaded/unloaded maximum drawbar pull	N	15,102 / 14,759	15,190 / 14,710	14,367 / 14,043
5.8	Loaded/unloaded gradeability	% (°)	29.5 (16.4)	27.5 (15.4)	24.5 (13.8)
5.10	Service brake		hydraulic	hydraulic	hydraulic
E - Motor					
6.1	Drive motor rating S2 60 min	kW	4.7x2	4.7x2	4.7x2
6.2	Pump motor rating at S3 - 15 %	kW	14.0	14.0	14.0
6.4	Battery voltage, nominal capacity K5	V/Ah	48 / 510	48 / 585	48 / 585
6.5	Battery weight	kg	850	1,030	1,030
Battery dimensions (L / W / H)		mm	978 / 545 / 635	978 / 630 / 635	978 / 630 / 635
Other Details					
8.1	Type of drive control		AC	AC	AC

Dimension

4.1	Mast / fork carriage tilt forward / backward	degrees	5 / 7	5 / 7	5 / 7
4.2	Lowered mast height	h1 mm	2,120	2,129	2,129
4.3	Free lift height	h2 mm	35	35	40
4.4	Lift height	h3 mm	3,325	3,325	3,330
4.5	Extended mast height	h4 mm	4,320	4,320	4,320
4.7	Overhead guard (cab) height	h5 mm	2,065	2,065	2,065
4.8	Seat height / Standing height	h7 mm	1,090	1,090	1,090
4.12	Coupling height	h10 mm	250	250	250
4.19	Overall length	l1 mm	2,995	3,020	3,030
4.20	Length to face of forks	l2 mm	2,035	2,120	2,130
4.21	Overall width	b1 mm	1,074	1,105	1,105
4.22	Fork dimension (length x width x thickness)	s / e / t	35x100x900	35x100x900	40x100x900
4.23	Fork carriage ISO 2328; class / type A, B	mm	II/A	II/A	II/A
4.24	Fork - carriage width	b3 mm	1,006	1,006	1,006
4.31	Minimum ground clearance (mast)	m1 mm	85	94	94
4.32	Minimum ground clearance (center of wheelbase)	m2 mm	90	90	100
4.33	Intersecting aisle width (pallets 1,000 x 1,200)	Ast mm	3,352	3,427	3,447
4.35	Minimum turning radius	Wa mm	1,710	1,795	1,810
